Important Points jo badal de jindagi..

Daily Diary - Roj kya kya karna hai subh list banana hai fir raat me check karna hai kitna kaam hua

Sabse pehle main class ko priority dena hai..

Screen share karke padana hi hai nahi toh job nahi lgega kuch bhi karlo..

Recording nahi dekhna hai...
class me 30% smjh ke ghr jake practice karke
70% tk concept smjhna hai fir kisi ko pakad ke pada ke
100% dimag me store karna hai..

Recording ke chakkar me rhoge toh job lg bhi gya toh 2 month me nikal dega job se...

HandsOn karna bahut important hai..

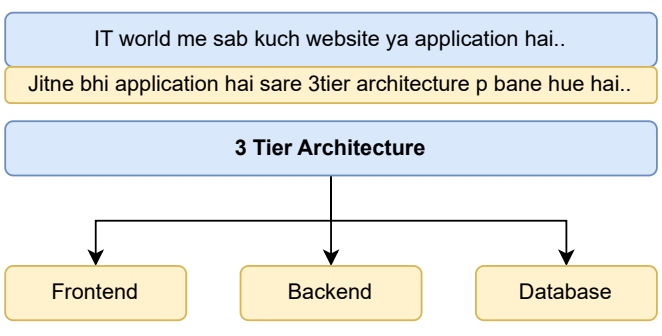
Resume, Linkedin, Naukri.com, Intro, Use case

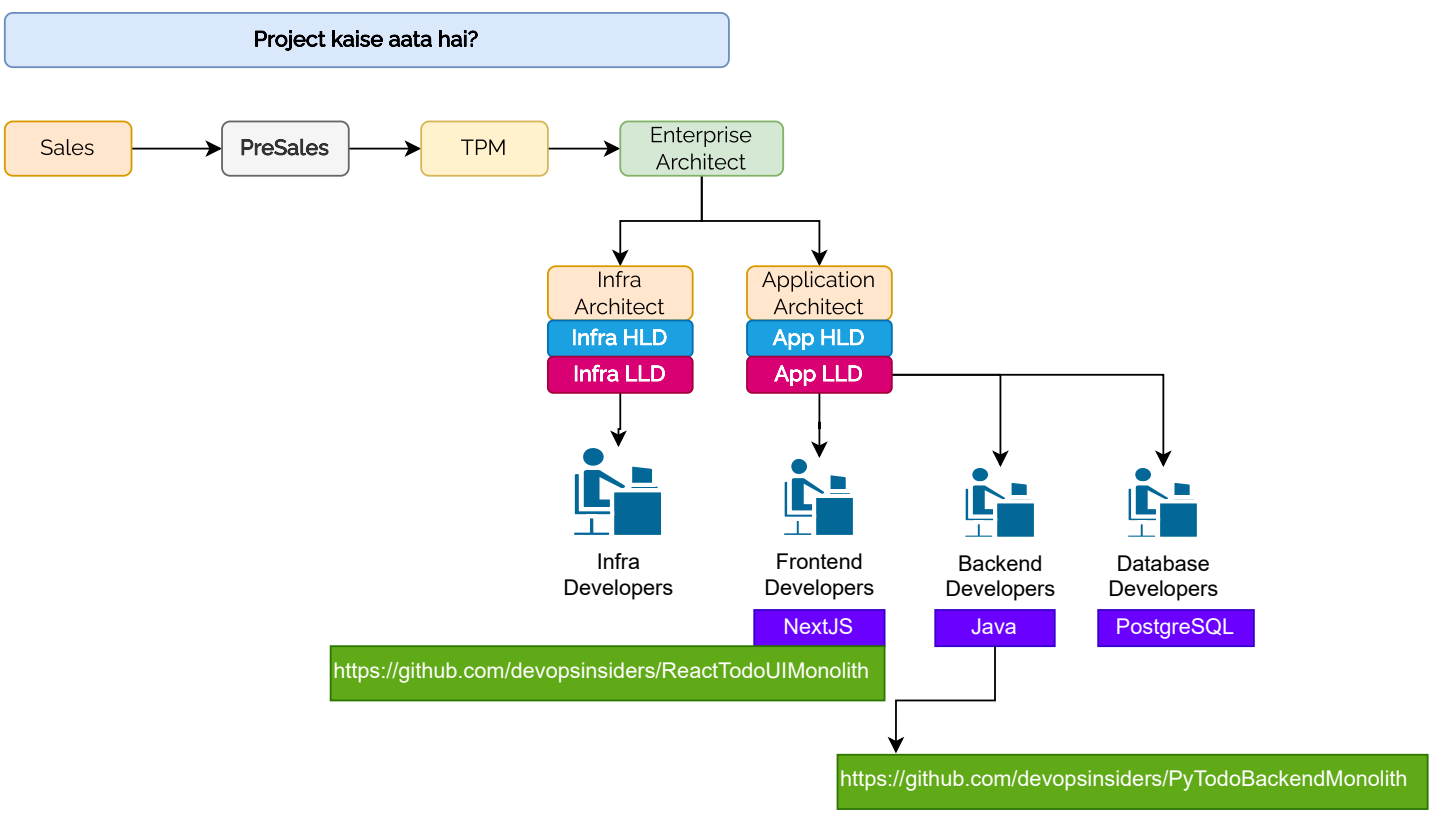
Interview me fail hona hai chote companies me..
My name is lakhan bolke aajana hai bs..

Apne sikhsha sathi me mock calls karna hai... Whatsapp call p, meet pr kahi bhi..

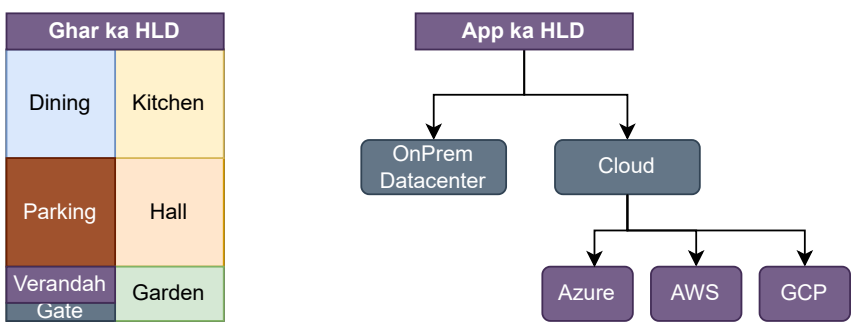
IT world me sab kuch website ya application hai..

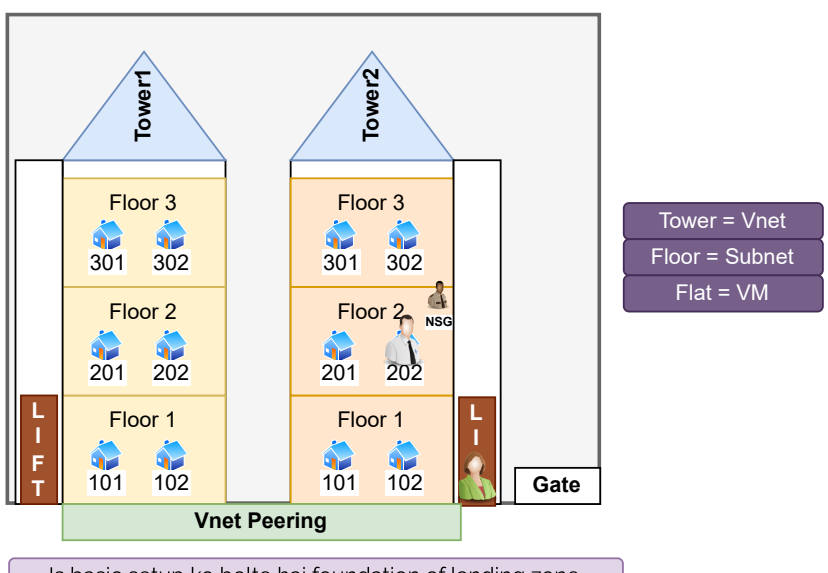
Jitne bhi application hai sare 3tier architecture p bane hue hai..





Target:
3 Tier Application ko Azure Cloud ke landing zone pr deploy karna hai click click karke considering backup, DR, monitoring, Security, Goverance, Compliance...

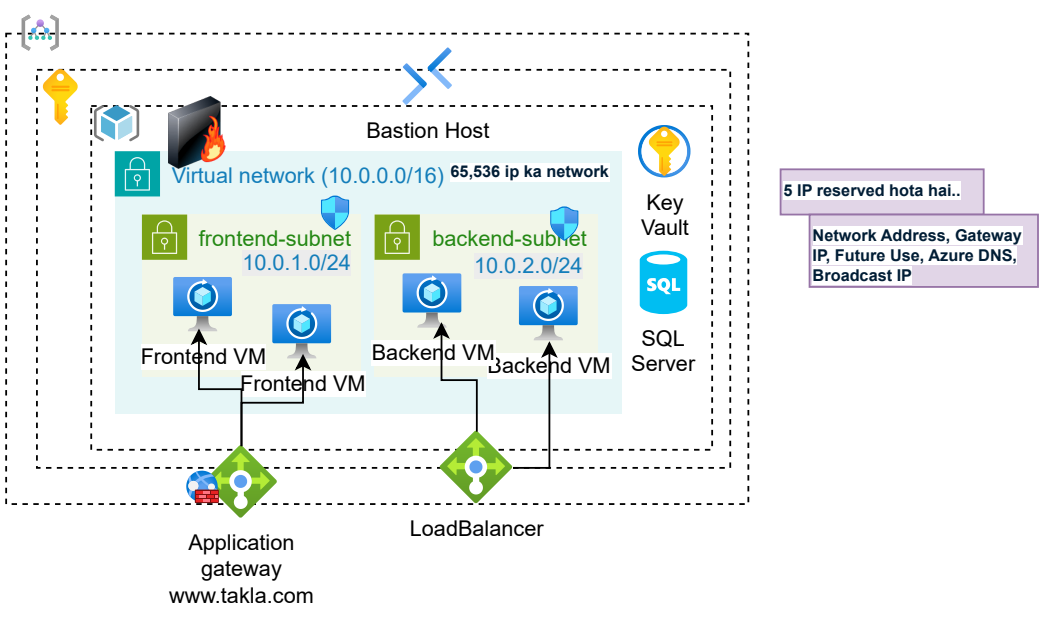


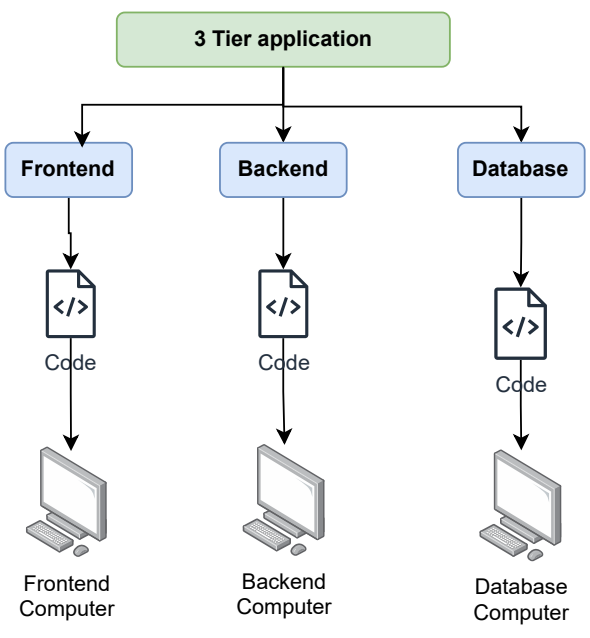


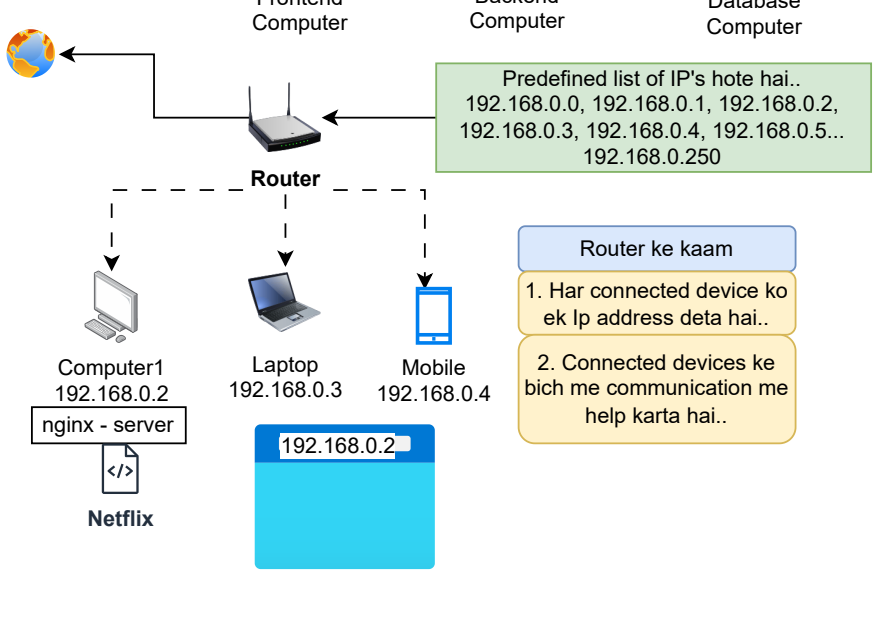
Is basic setup ko bolte hai foundation of landing zone

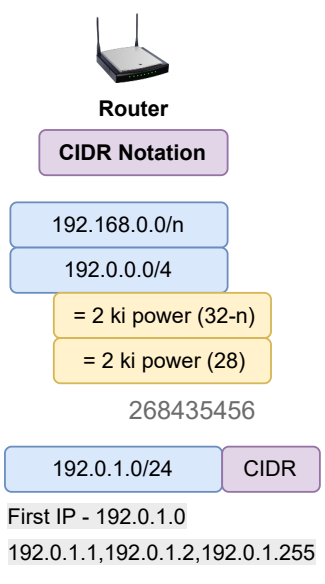
CIDR - Ek network me kitne computer ho sakte hai..

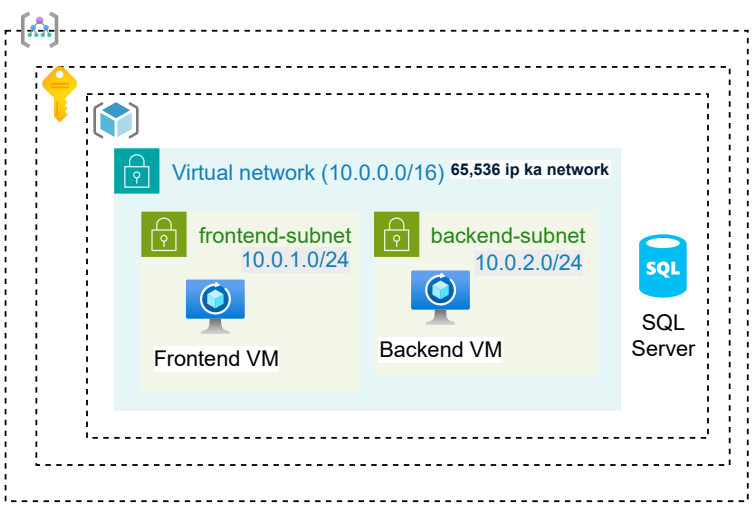
Jaise hi access mila, ek management group mil gya, usme subscription mil gya usme rg bana lia and ab click click karke landing zone banana hai..







Router ke kaam




1. Har connected device ko ek Ip address deta hai..
2. Connected devices ke bich me communication me help karta hai..
