

5-7 saal experience dikhana hai

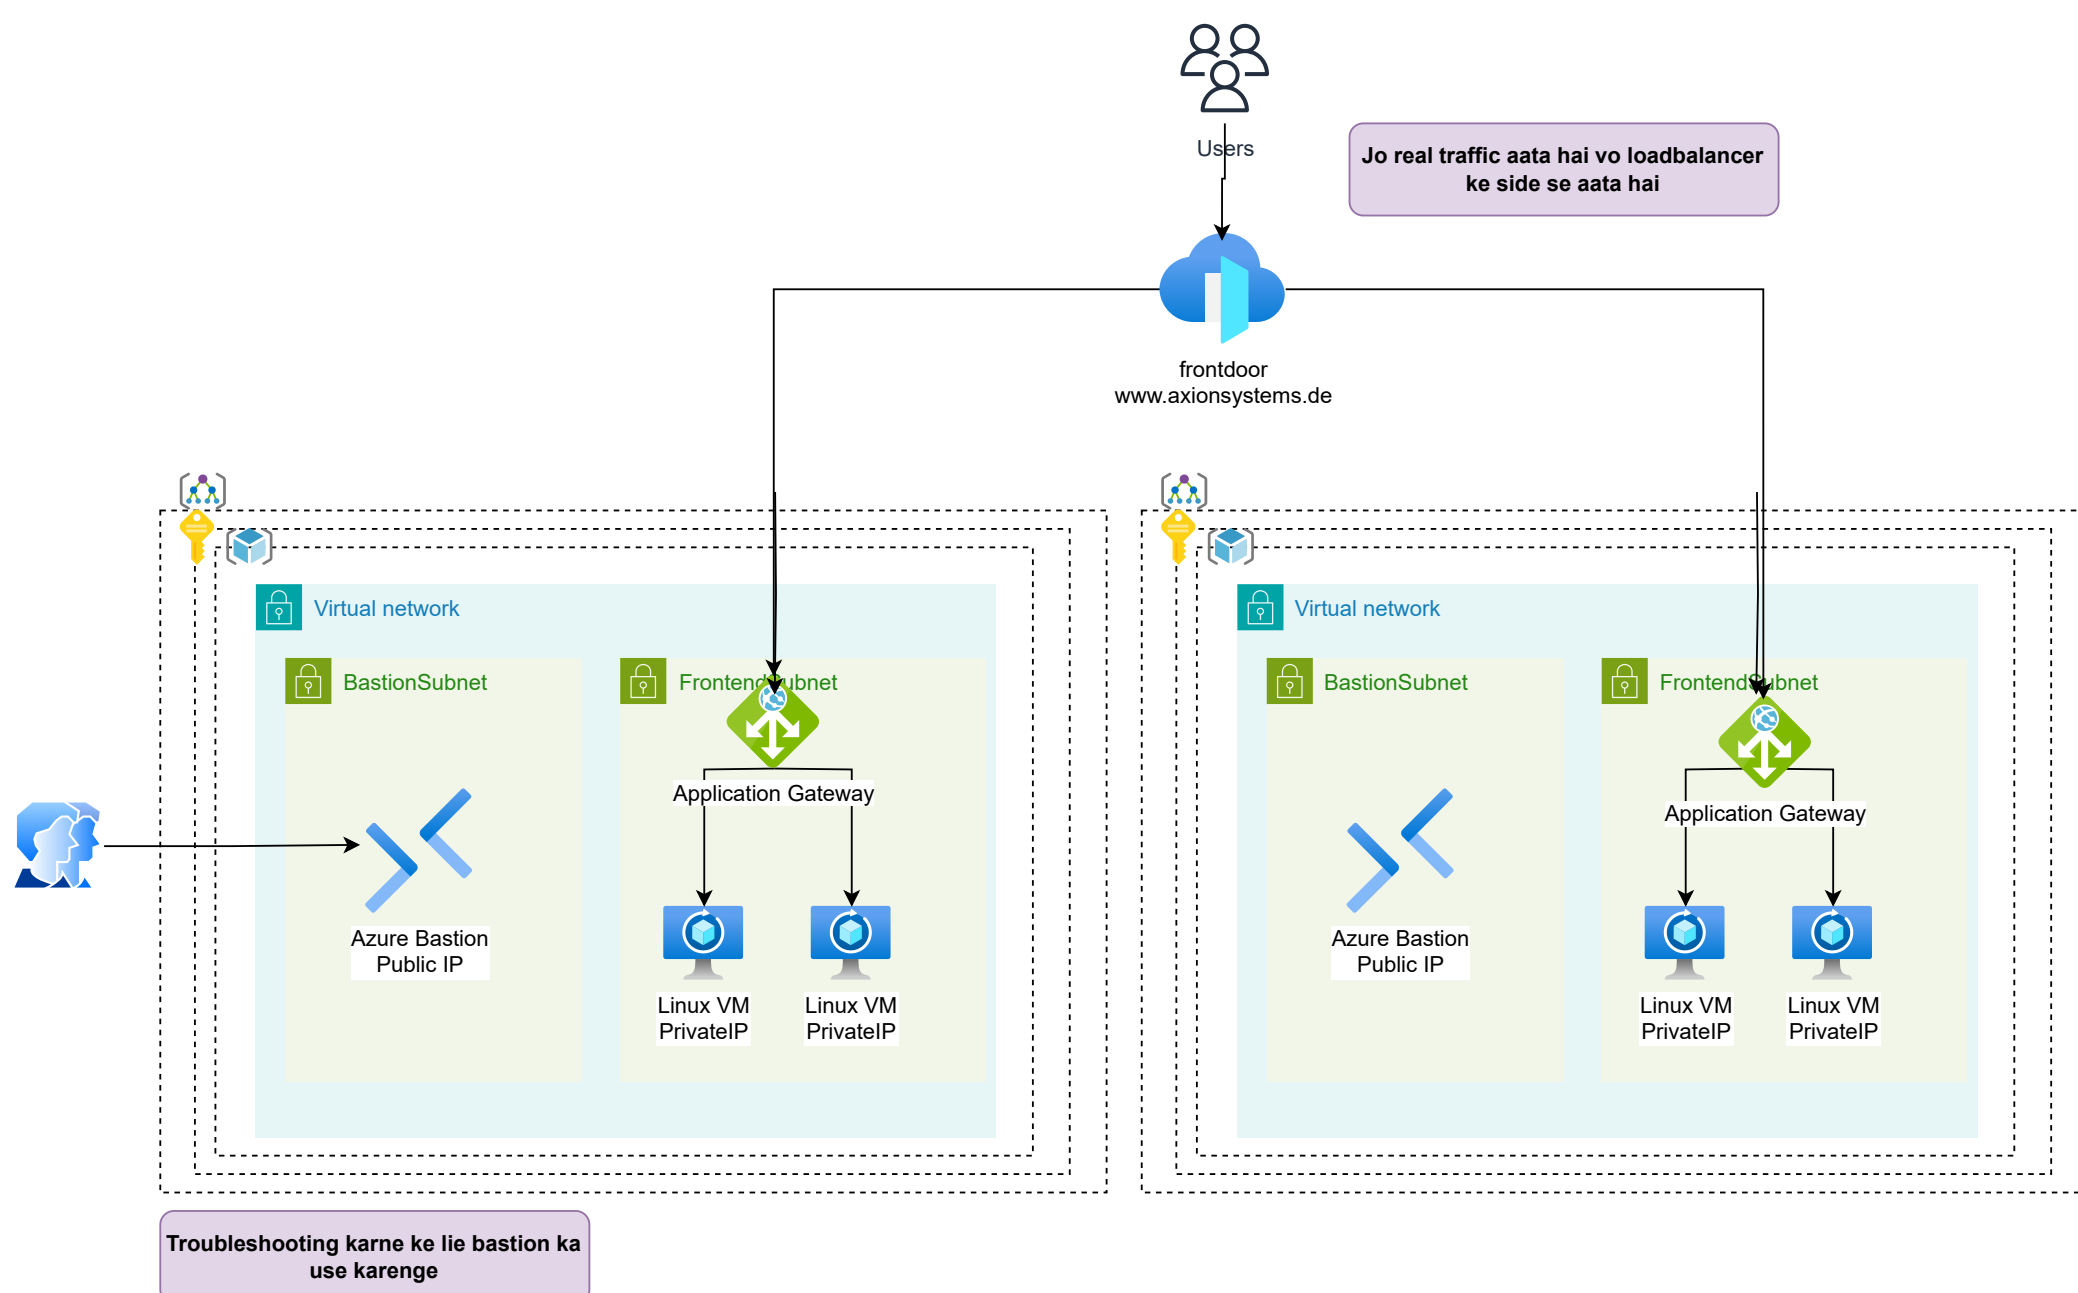

Uske lie tone me exprience dikhna chahiye

vo bs **screen share** karke hi aaega

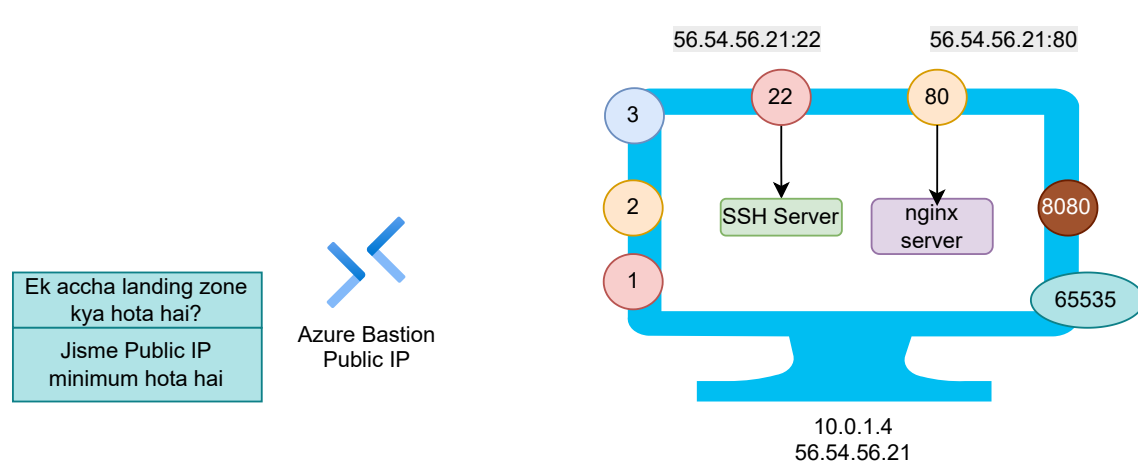

Dono ka HLD and LLD banega

Azure ke landing zone manual and terraform se banana sikh
rahe hai

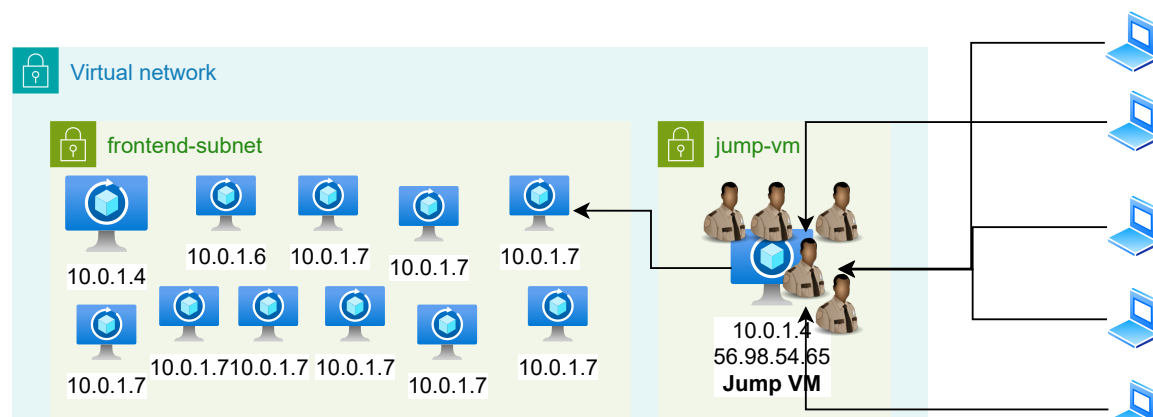

Jo real traffic aata hai vo loadbalancer ke side se aata hai

www.axionsystems.de

 Virtual network

Ek accha landing zone kya hota hai?
Jisme Public IP minimum hota hai

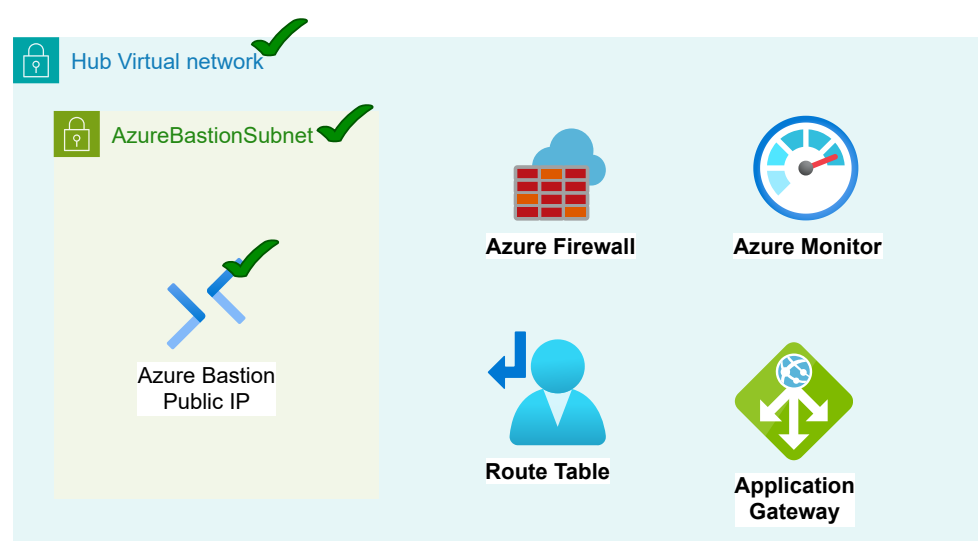

Azure Bastion
Public IP

Jump VM problem
Agar jump vm compromise ho gai toh pura network ka game bj jaega
Agar bahut sare users jump vm pr hit mar denge toh jump vm ki pungi baj jaegi, scalability issues

Bastion browser me https me chhla hai mast securely, azure bastion hote hue private ip hote hue connection ban jaega

Traffic hmesha azure firewall hote hue aana chahiye
VM pr kabhi bhi IP address nahi dena chahiye unless business requirement is there

Bastion ko Hub Vnet me rakho

Internet se hmesha block rakhna hai NSG

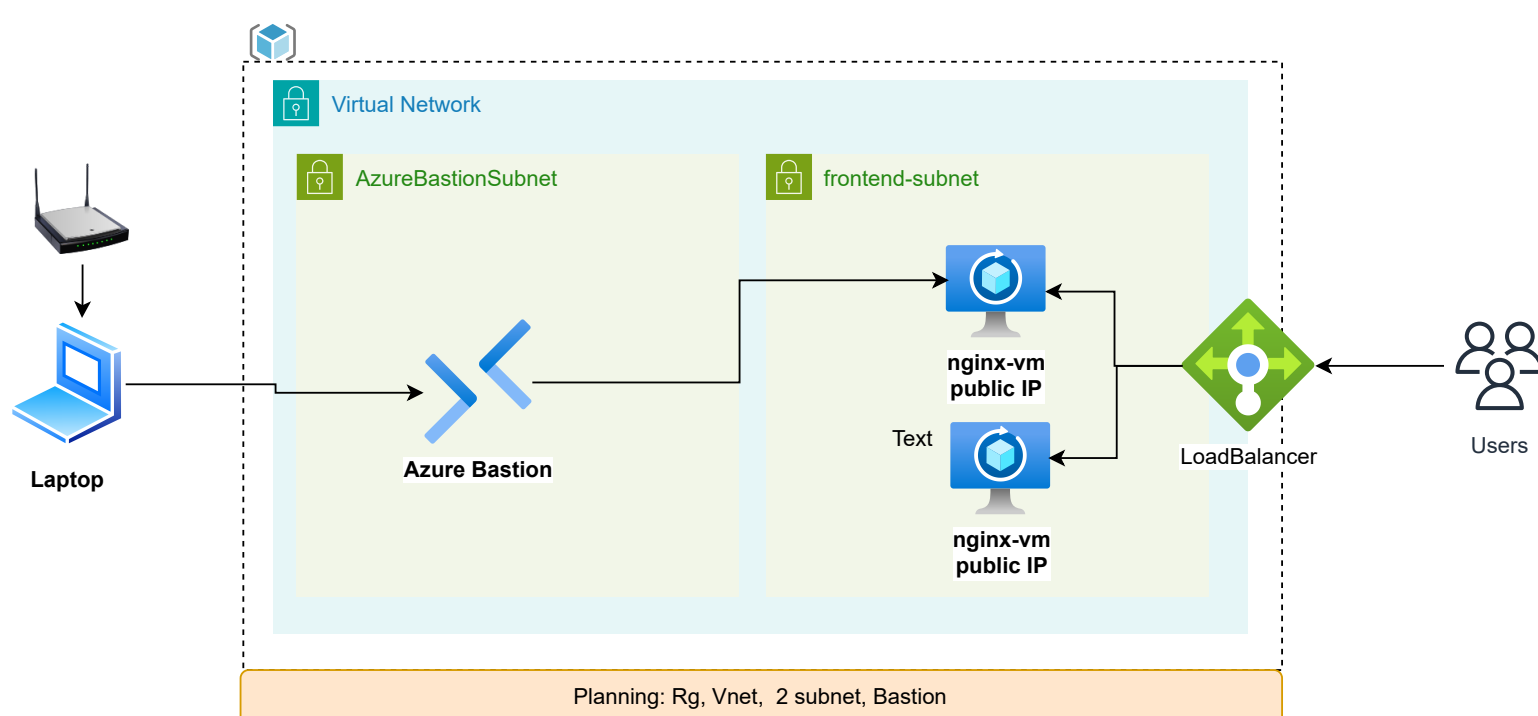

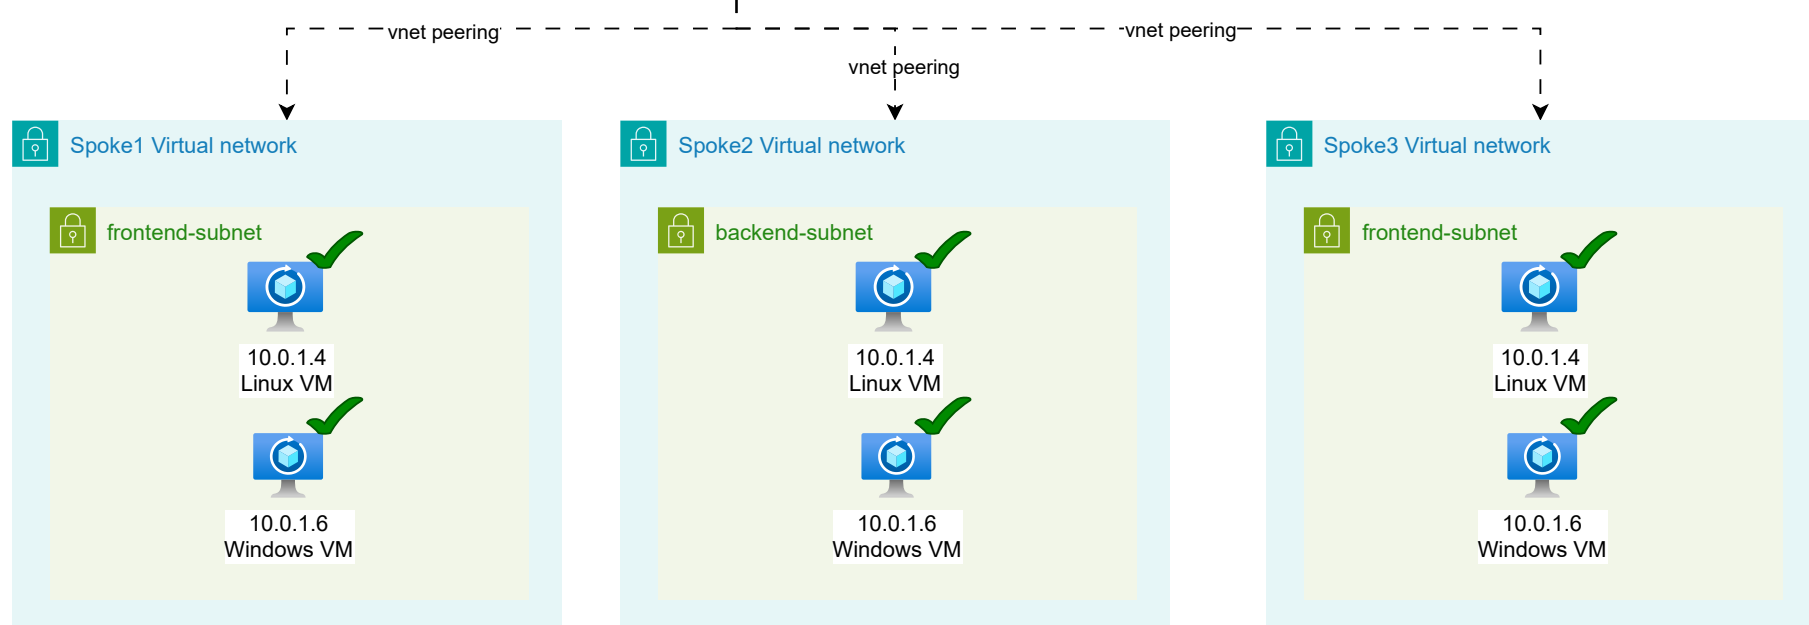

Kya spoke 1 and spoke 2 aapas me
neering ho sakte hai?

Why NO? (ye dhhondhna hai)
