

ACHIEVEMENT

UNLOCKED!

17x5 = 85 Hours
Continuous Mock
Interview Session

Monday to Friday
17 Hours every
day

Agar crash course me smjh nahi aa raha hai toh mt karo...

Terraform ForEach + List and Map ko bahut proper tarike se karna hai..

- Foreach bolta hai
- Humko bs set of strings chahiye ya map chahiye
- Foreach ek meta argument hota hai
- depends_on ek meta argument hota hai
- count bhi meta argument hota hai
- lifecycle bhi meta argument hota hai

rg_names = {
 name = "rg-white"
 location = "westeurope"
}

key = value

Agar name key hai toh,
value "rg-white"

Agar location key hai
toh, value "westeurope"

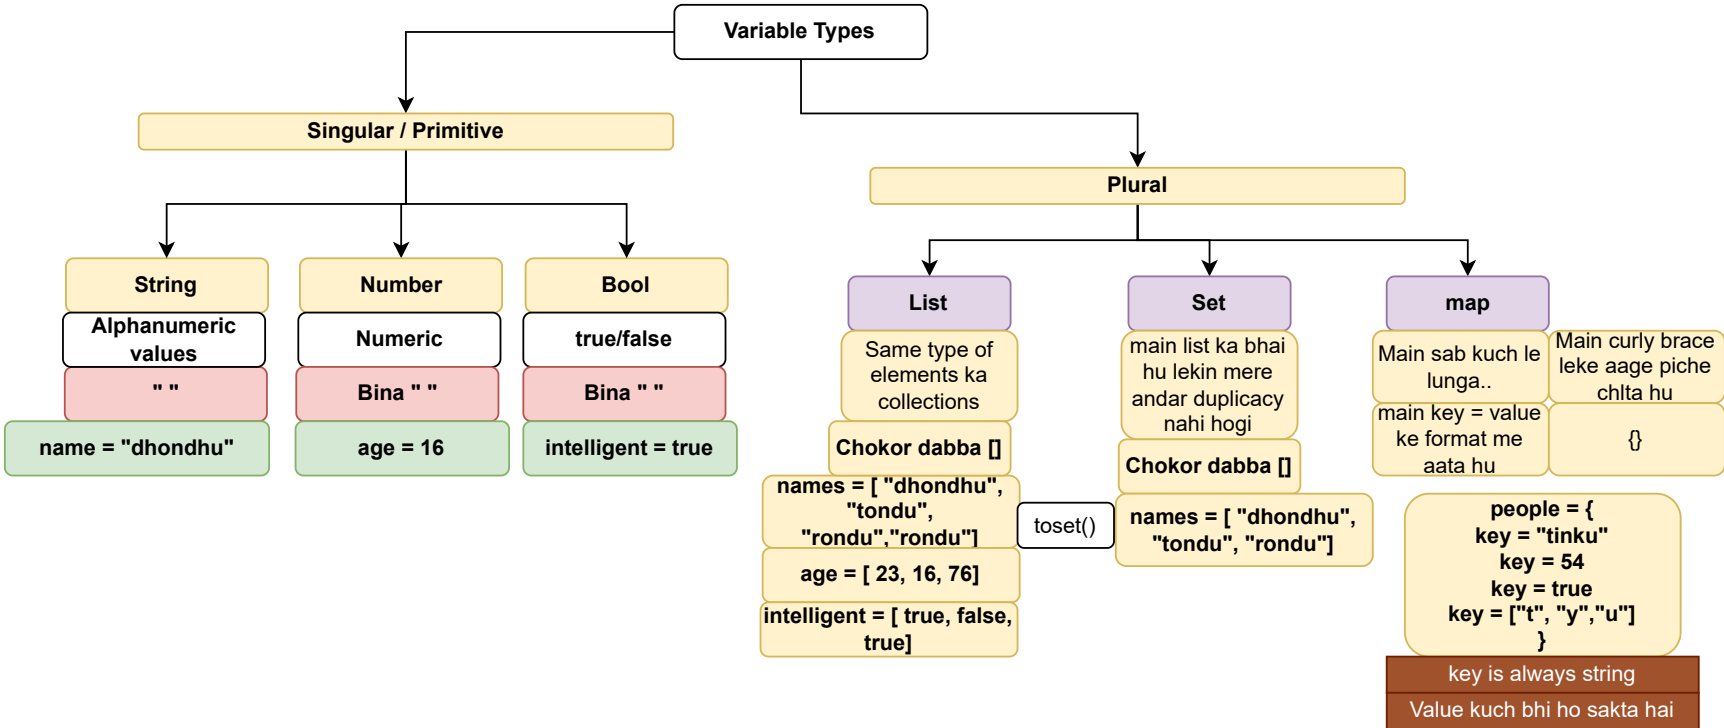

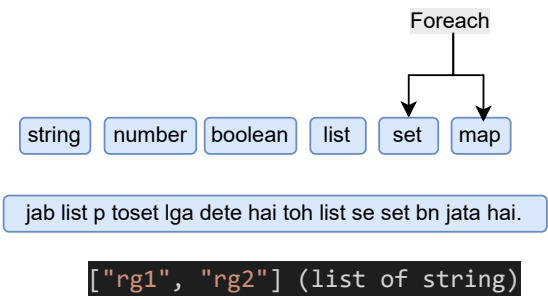

agar rg_names key hua
toh { name = "rg-white"
 location = "westeurope" } ye sb
value

Foreach + list se 4 rg bana lia

lekin charo rg ek hi location me banaya

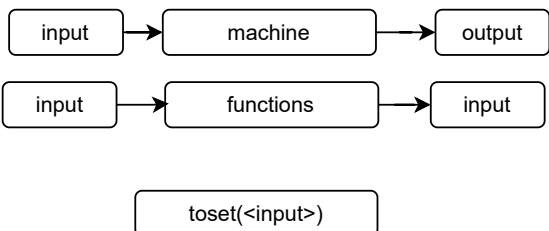

Charo rg different location me banana hai ab

Pressure handle karna is very important

Parenthesis = ()	Functions
Square Bracket = []	list / Set
Curly Braces = {}	Block, Map

Foreach will only take set of string and map

for_each = Bomb

resource "azurerm_resource_group" "rgs" {
 for_each = toset(["rg1", "rg2", "rg3"])
 name = each.value
 location = "eastus"
}

resource "azurerm_resource_group" "rgs" {
 name = "rg1"
 location = "eastus"
}

resource "azurerm_resource_group" "rgs" {
 name = "rg2"
 location = "eastus"
}

resource "azurerm_resource_group" "rgs" {
 name = "rg3"
 location = "eastus"
}

For me agar list jaegi toh kitne block ki copy banegi? jitne list me elements honge

For Each + List

each.value = rg1
each.key = rg1

each.value = rg2
each.key = rg2

each.value = rg3
each.key = rg3

Jitne bhi rg bana rahe hai vo sab rg ek hi location me hai..

For Each + Map

Map kya hota hai?

{ }

{
 key = value
 key = value
}

value = kuch bhi

"56" = "westus"
"54" = "centralindia"
}

1. Curly brace se chalu hoga, curly brace p band hoga..
2. key = value jaise chize jaegi
3 key is always a string

resource "azurerm_resource_group" "rgs" {
 for_each = {
 rg1 = "westus"
 rg2 = "eastus"
 }
 name = ""
 location = ""
}

foreach ke andar agar aap map daloge toh aapki utni copy banegi jitni map me keys hogi
